Look out for the sleek tongued varments that tell you the Advance is not the best sanching in the market. These that tell you falsehoods are not worthy of being called by any other name. The ADVANCE is guaranteed to do more and better work then any cheer machine in the market, and the same wall mailtime on the Coast

then any other machine in the market, and in the cally machine on the Const that has NEVER been replaced by other machines. Other dealers have offered new machines for an ADVANCE that has been run two years, and have given parties to understand they would give differences, but were told that the ADVANCE, after two years' run was still much better than old fogy machines, if they were new. And it the ADVANCE engine is not the best traction engine why is it that I have sold TWELVE on the West Side, between Portland and Corvallis, this year?

The question was on Turner's addition to section two, asserting the states a title to-inde lands, etc. to which kinnear had moved an amendment concurning the United biases patent it grant.

Warner opposed kinnear's amendment, but, pording his remarks, kinnear withdrew it in laring it up later on sites moved to strike out the last chause which provides that no arts of the legislature or of private persons hitherto performed shall prejudice the state's title.

Hot said that was just the very point in this declars hen which he valued it for, and he trusted it would not be straken out.

Turner read on of those acts which his amond ment professed to everthrow and which purported to give the beattle and walls walls Transhortation Company all of the tide lands in Elliott Bay. In his ju gment the legislature had no right to give away arry of these lands but yet by the schedule, which will conligue to the large of the territory rats possible that this law will be held to be confirmed.

Atthes bad no thought of any particular act but, it his convention wants to repeal any act of the tegislature and can do it, he would heartily join in These octs were not valid, and he did not know that any body we do the stating anything unjoined to left. The legislature had no propose to which the proposition what he considered on the courts to claim what he considered contributed the swelling and the stopped, but the did not leave the act were not valid, and he did not know that debated only children for the proposition of the territory claimed certain rights, and would carry children from the anything to assert any just the life of the formal courts to claim what he considered chain rights, and would control to the courts to claim what he considered control to the courts to claim what he considered control to the first partial provider or one of the courts to claim what he considered control to the courts to claim what he considered cont

rights, and would go into the courts to maintain them it the state over interfered with them. That was their privilege, and so form of constitutional prohibition of that privilege would onlist his vote. We had siready by the clause on alten out nearly, run fare always and provided that no clause of the control of the clause of the control of the clause of the clause of the constitution of every parties of land at this moment held by an alien in this territory. The only protection see my to be the fourteenth amendment of the constitution of the United states, which declares that no man is property shall be taken from him except by due process of law, and even here arises the question of whether a some by the people on a constitution is not fairly to be constructed as a time process of law. ↔ A THOROUGH, PRACTICAL EDUCATION >>

Which develops strength of character and fits one for useful and honorable positions in life is the need of young men and young women today. Those who succeed are those who rely upon their own determination, and win their way by honest and earnest effort in the face of every obstacle. The students of the Normal School are largely young men and women who are making their own way in the world. and, consequently, know the value of every dollar and of every minute of time. With such a body of students, stringent and annoying rules are unnecessary and discipline a matter of little trouble. The spirit of the school is one of work, and there is little temptation to waste either time or money. It is the pride of the Normal that its students have carried this same spirit out into active life with them. and are to be found in all parts of the Northwest filling important stations with honor and success. The demand for teachers from the school is greater than the supply, although more than three-

Washington and Idaho. A much larger representation expected the coming year.

For the school is afforded by the town of Monmouth, situated seventy miles south of Portland, on the narrow gauge railroad, and twelve miles southwest of Salem. The town is on high, rolling ground, free from malaria, and is surrounded by the richest farming country in the Willamette valley. Saloons and all dens of vice are excluded forever by a section of the town charter. The business prospects are fine and those seeking either a business location or a place of residence, will do well to visit Monmouth. In addition to the new Normal School building, to cost about \$12,000, at present in process of erection, a number of new business buildings are projected for the coming year. A motor line, connecting Monmouth with Independence, will probably be built this fall.

LAGIISH JUSTICE

It is said that the course o' law in England It is said that the course of law in England in criminal cases is always wift and it certainly is so in the case of Mrs. Maybrick of the case of Mrs. Maybrick of the case of Mrs. Maybrick is not probable that anything can be done to save her life. Were it alsolutely certain that this woman poisoned her husband to death of which woman poisoned her husband to death of slow degrees not one particle of to see her life. Were it also dively certain that this woman porsoned her hasonal to death by slow degree not one perticle of symp thy should be wisted in her behalf but he crimo of hasband starder has not been clearly first dupon her. It must be said there were real elements of doubt in the case as it was presented by the prosecution. Too much was proved. Writeness testified that Maybrick was in the labit of using arsenic is a medicine while his his vivileks use of it as a complex of improver was no secret. The manner in which the dadly drug was continued about 1 t. Maybrick maniston was alvigether too miscellaneous. INHUMAN PUNISHMENT

M anybody thinks that the criminal code of to day is innuman because it includes the genth penalty for murder he needs to be redeam penanty or include the factor when builded that in the year 1775 I to year when our Revolution broke out a youth was sen tenced by the courts of I cince to have his bands out off, his tongue torn out with pin eers and his body burned alive because he minded that in the year 1775 the year when our Revolution broke out a youth was sent need by the courts of I cince to have his hands out off, his tongue torm out with pineers and his body burned alive because he had not kneeled down in the r in to do honor to a divty procession of monks which passed within his view at a distance of some fifty or sixty yards. No wonder the French Revolution came and horribly avenged the death of that poor youth upon the priests that demanded his immulation

and the king that permitted it.

This terrible historical fact is cited by Dickens in the first chapter of perhaps no greatest novel. A Tale of Two Cities. The novelist adds that England's condition in 1775 was not such as to justify any n utonal boasting. We quote. The mul was way In d by sev n rel bers. ROVAL BAKING

ABSOLUTELY PURE

For quick ruleing the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power is always uniform in strength and quality and never falls to make light, sweet, most palatable and nutritive food Bread, biscuits, muffins, case, etc., raised with Eoyal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs It will keep in any climate without deterioration

Prof H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests mg le both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartan, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public
